

TESLA Technical Design Report

**PART II**  
**The Accelerator**

March 2001

Editors:

R. Brinkmann K. Flöttmann J. Roßbach  
P. Schmüser N. Walker H. Weise

## Acknowledgements

The authors would like to express their deep gratitude to the late distinguished particle and accelerator physicist Bjørn H. Wiik, who was the driving force behind the TESLA project and whose enthusiasm and determination has been essential for much of the progress that has been achieved.
